

Adel Haridy

Network & Systems Engineer

Egypt | adelmjkj@gmail.com | 01274781564 | GitHub: github.com/cybe55 | Portfolio: cybe55.github.io

Professional Summary

Highly motivated Network & Systems Engineer with strong hands-on experience in enterprise networking labs and system administration. Certified in CCNP ENCOR, CCNA, RHCSA, and MCSA. Proven ability to design, configure, and troubleshoot real-world network infrastructures. Seeking a training or junior role to contribute to reliable and scalable IT environments.

Certifications

- 1 Cisco CCNP ENCOR – Enterprise Core Networking
- 2 Cisco CCNA – Routing & Switching
- 3 Microsoft MCSA – Windows Server Administration
- 4 Red Hat RHCSA – Linux System Administration

Technical Skills

Networking: OSPF, EIGRP, BGP, VLANs, STP, EtherChannel, HSRP, VRRP, GLBP, ACLs, NAT

Systems: Windows Server (Active Directory, DNS, DHCP), Linux (Users, Services, Bash)

Hands-on Labs & Projects

- 1 Configured OSPF with MD5 authentication
- 2 Implemented HSRP, VRRP, GLBP redundancy
- 3 Built BGP lab topology (iBGP & eBGP)
- 4 Applied ACLs and NAT (Static, Dynamic, PAT)
- 5 Deployed DHCP and DHCP Relay
- 6 Implemented EtherChannel (PAgP & LACP)
- 7 Performance score: 93% – 97% (Excellent)

Tools & Technologies

Cisco Packet Tracer, GNS3, VMware, Windows Server, Red Hat Linux
